

# Toward Very High Energy Particle Astronomy 5

Institute for Cosmic Ray Research, University of Tokyo, Kashiwa

March 2005

## <Meeting Agenda>

### Monday 7

13:00–13:10	Opening Address	Naoshi Sugiyama	NAOJ
13:10–14:00	Giant Flare from SGR 1806–20	Nobuyuki Kawai	TITECH
14:00–14:30	Search for neutrinos from SGR1806–20	Yoshitaka Itow	Nagoya U
14:30–15:20	Fire Ball and SGR 1806–20	Ryo Yamazaki	Osaka U

15:20–15:50 Coffee Break

15:50–16:40	Particle Acceleration of Gamma-ray burst	Katsuaki Asano	NAOJ
16:40–17:30	Ashra Update	Makoto Sasaki	ICRR

18:00–20:00 Banquet @ Kashiwa Campus Cafeteria

### Tuesday 8

9:00–9:20	Gamma-ray and Neutrino Astronomy, Origin of Cosmic Rays	Tadashi Kifune	Shinshu U
9:20–10:20	Latest Results of HESS	Stephan Funk	MPIK

10:20–10:50 Coffee Break

10:50–11:20	CANGAROO: Summary of the Current Status	Ken'ichi Tsuchiya	ICRR
11:20–11:35	Observations of TeV gamma rays from Centaurus A	Shigeto Kabuki	ICRR
11:35–11:50	Very high energy gamma-ray observations of the Galactic plane by the CANGAROO-III telescopes	Michiko Ohishi	ICRR

11:50–13:30 Lunch

13:30–14:20	A Hard X-ray Study of Supernova Remnants	Aya Bamba	RIKEN
14:20–15:10	Swift and Future high energy X from Space	Kazuhiro Nakazawa	JAXA

Registration Fee : 500 yen per person for coffee and snacks. No credit cards and checks.
